Case 5 – Digital Library Management Interface

Case: Design a library website with book categories, book covers, author details, availability labels, searchand filter interface elements, and library rules. Use CSS Grid and structured tables for displaying cataloginformation.

Explanation: Firstly, I created a folder to place all the cases. Then I created my own website based on thegiven information about the Digital Library Management Interface. I wrote the code for the case and linked itwith an external CSS file.
